

Carmen Recio Muñoz

Head of the Art and Culture and Biodiversity Divisions

Graduate in Economic and Business Sciences, specialising in Business, from the Complutense University in Madrid

Professional experience

She began her professional career at Hidroeléctrica Española (now IBERDROLA), in 1985 filling different roles in the Sales and Environment Departments. She started her career at the Foundation in November 2009, specialising in the management of art and culture projects. Her wide environmental experience has enabled her to implement biodiversity projects within the framework of the Foundation's Master Plan. In the heritage restoration and conservation field, she has launched groundbreaking projects recognised as successes by LBG España.

Career highlights relevant to his post on the Spain Iberdrola Foundation

She completed the 1st Edition of the Advanced Programme in Corporate Responsibility Management at Instituto de Empresa, Madrid; an Advanced Course in Energy Funding: Energy and Projects at Alcalá de Henares University/GIFF, and a Master's Degree in Legal, Economic and Social Organisation of the Environment at the Escuela de Organización Industrial. She was spokeswoman for the State Council for Corporate Social Responsibility (reporting to the Ministry of Employment) from 2009 to 2014.
